

A KESTON FOR ALL OCCASIONS

The Keston range includes both domestic and light commercial models which come complete with twin flue capability.

Keston boilers are offered with a warranty of up to 7 years†, ensuring the ultimate peace of mind for both you and your customer. The Keston range is made up of Combi, Heat only and System boilers, offering a solution for all applications.

Every model in the range offers a market leading solution for awkward and problematic installations, thanks to the twin flue capability.

You can rest assured when choosing Keston as you will be supported by a national customer service team, offering support 7 days a week.

* For the maximum total equivalent flue length please refer to the installation instructions.

** The only systems approved for this application are: Marley muPVC (PVC-C) Solvent Weld Waste System (50mm), Polypipe System 2000 muPVC (PVC-C) Solvent Weld Waste System (50mm), Polypipe Terrain Solvent Weld System (50mm) and Wavin Osma PVC-C Solvent Weld System (50mm). Please use the recommended Solvent Weld Cement for each system.

† 7 year warranty when installed with a Keston 22mm System Filter and registered within 30 days of installation. 5 year parts & labour warranty as standard. 7 year warranty available until 31/12/20. Terms and conditions apply. Applies to Keston Combi and System boilers only.

†† 2 year parts & labour warranty as standard. 5 year warranty available subject to being commissioned by Keston Boilers. Free Commissioning only available when a Keston 28mm System Filter is installed with a single Keston Heat 2 boiler; not available on multiple (cascade) boiler installations.
